1. The declaration of 2/10/04 is proper.
2. Review of the IDS is held in abeyance until the examination on the merits.
3. This application contains claims directed to the following patentably distinct species of the claimed invention: The species of Figure 1. The species of Figure 13. The species of Figure 21.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. A telephone call was not made to applicant's attorney to request an oral election to the above restriction requirement because of the complexity of the invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. A response to this election of species must be made within one month from the date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alan Faber whose telephone number is (571) 272-7553. The examiner can normally be reached on flextime (M-F).
